HALF A
CENTURY-LONG
STORY

1952 THE BEGINNING

IT WAS 1952 WHEN JOVO AND ELVIRA RIZZO LAID THE FOUNDATIONS FOR THE REALIZATION OF LA CORALLINA. THE INITIAL IDEA WAS THAT OF AN INN, A REFRESHMENT POINT FOR LOCAL FISHERMEN, PASSING TRAVELERS, AND THE VERY FEW TOURISTS WHO STOPPED THERE FOR VACATION. IT DIDN'T TAKE LONG FOR JOVO AND ELVIRA TO DECIDE TO BUILD ROOMS, TRANSFORMING THE SMALL INN INTO A HOTEL. THUS, THE SEED OF A FIRST IDEA OF TOURISM FOR THESE PRISTINE AND EXCEPTIONALLY BEAUTIFUL PLACES WAS PLANTED.

1969 THE EVOLUTION

THE VISIONARY FORESIGHT OF THE RIZZO SPOUSES COULD NOT REMAIN INACTIVE. THUS, THE BOLD AND DARING IDEA TOOK SHAPE TO BUILD, IN A DIFFICULT AND RUGGED LOCATION, A HOTEL MUCH LARGER THAN LA CORALLINA. IN JUNE 1969, THE HOTEL L'APPRODO WAS INAUGURATED. A RENOVATION PROJECT THAT, FROM FATHER TO SON, UNDERWENT TWO SIGNIFICANT STAGES. THE FIRST IN 1988, WHEN NICOLA RIZZO, THE SOLE HEIR, TOOK OVER THE MANAGEMENT OF THE ENTIRE STRUCTURE.

2013 A NEW VISION

THE SECOND, IN 2013, BY THE THIRD GENERATION OF THE FAMILY, SAW THE BIRTH OF THE THALASSO SPA, AN AMBITIOUS PROJECT THAT UNDERSCORES THE ABILITY TO CATER TO AN ELITE AND DEMANDING MARKET. TRADITION MERGES WITH INNOVATION, THUS GIVING BIRTH TO APPRODO RESORT THALASSO SPA, 2500 SQUARE METERS DEDICATED TO WELLNESS. HERE, SEAWATER, SEAWEED, SALT, MUD, AND THE MICROCLIMATE OF THE PUNTA LICOSA MARINE RESERVE, ALONG WITH THE EXPERTISE OF OUR THALASSO TRAINERS, PLAY A CENTRAL ROLE IN OFFERING A UNIQUE STAY. APPRODO RESORT THALASSO SPA EMBODIES ALL OF THIS.

THALASSO SPA

It's an ancient and effective relaxation and healing method that utilizes the combined action of all resources from the marine environment. In addition to seawater, it harnesses the beneficial and synergistic effects of climate, algae, sand, and marine mud. Seawater contains a variety of essential minerals and trace elements crucial for the human body, along with numerous properties such as revitalizing, cleansing, and antibacterial effects. The beneficial virtues of seawater have been known since ancient times (egyptians, greeks, romans) and are enhanced by the most advanced hydrothermal techniques available to our guests. A properly prepared bath, at regulated temperatures, allows and promotes osmotic exchange between the marine environment and the human body, and the precious marine elements absorbed by the skin reach the bloodstream through the blood vessels.

EMOTIONAL TUNNEL

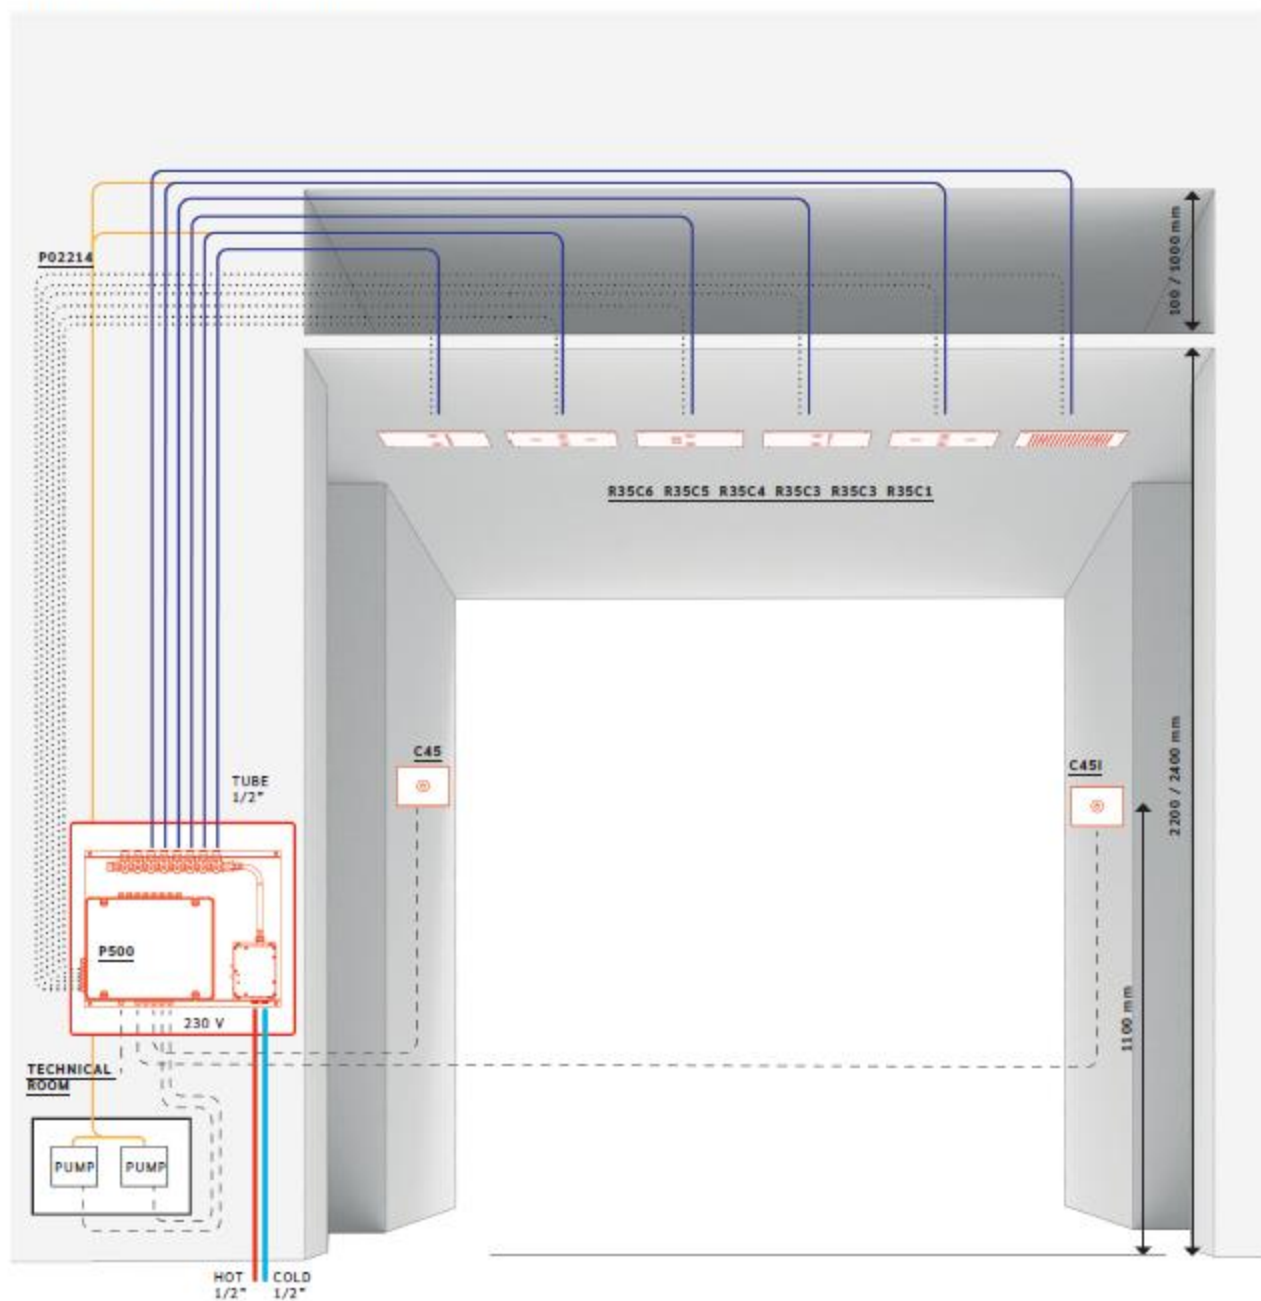

A woman with wet hair is shown from the back, standing under a large, square, rain-style showerhead. Water is cascading down from the showerhead, creating a misty spray around her. The scene is set in a modern bathroom with a dark ceiling and light-colored walls. The lighting is dramatic, highlighting the water droplets and the woman's skin.

The "emotional tunnel" represents a fascinating sequence of unexpected experiences, immersing the user in a multisensory journey through water, lights, aromas, and sounds. This journey leads to a profound sense of well-being, where each step evokes different emotions, creating unique experiences along the way.
